I recommend this extraordinary book because I find the story curious, intellectual, and above all tremendously thrilling. At first look, a writer named Thad Beaumont has an unsuccessful line of books. However, one day he decides to create a stage name (George Stark) and writes a brand new series of novels about a psycho killer called Alexis Machine. These stories become unbelievably popular and the true author is leaked to the public. After everyone finds out the connection between George Stark and Thad Beaumont, for publicity, Thad makes an afternoon funeral for George. A comedic ending starts a horrid beginning as George comes back as a physical entity and seeks revenge to all who seemed part of his death. The greatest twist of all this alleged murder looks exactly like Thad!
