

**JAF Notable Alumni News - Juanita Olivo, Class of 2009**

Like many students, Juanita was unsure about her career path when she graduated in 2009: she envisioned a major that would “be my entire career and life.” Friendly, charismatic and hard-working, she experimented with a few different fields before eventually deciding to pursue a career in theater. She received her BFA in Theatre Performance from Florida International University in 2016.

Juanita is currently a Live Host/Performer for *Sesame Street Live* and is proud of the fact that she can sing through three full shows in a day and mimic almost anyone’s mannerisms.

Juanita believes that life is not about becoming the perfect person but about finding pleasure in one’s journey, not shying away from failures because they “make you stronger.”

John A. Ferguson Senior High School is proud of call Juanita one of its own and congratulates her for representing our community with pride and enthusiasm!
