AT YOUR FINGERTIPS!

The JAF Information Center has a plethora of resources for students and teachers. Before the school opened, department chairpersons and faculty members made recommendations for the purchase of supplementary curriculum resources. Among these resources were videos that support classroom instruction.

The Information Center's website also has links to sites and teacher-made PowerPoints that can be used by you and your students. Your media specialist can assist you in supplementing your lessons with additional materials.

PRIMETIME INVESTIGATION "CAUGHT CHEATING"

A recommended DVD, available at the Information Center, is an ABC Primetime Thursday video with Charles Gibson. This 40 minute program, entitled "Caught Cheating," presents information on how and why students are cheating. In this video, students and faculty members are interviewed, school honor codes and plagiarism are discussed, and reference is made to TurnItIn.com.

Send an email to Ms. Alvarez if you wish to preview this video and/or show it to your students. Request:

IT'S YOUR "DESTINY"

Teachers, you may access your account and the resources available to you by logging in to **Destiny**. **Destiny** is the district's online catalog. You may access **Destiny** by clicking on **Information Center** located under **Students** on our school's homepage. The Information Center website provides a link, on the left side, to **Destiny**. It also provides directions on using the online catalog (select **Lessons**, on the left, and then **Destiny for Teachers**).

Teachers have found it helpful to create **Resource Lists** in **Destiny**. This list has enabled instructors to keep a record of the resources used for particular lessons. They are then able refer to this list the following school year when gathering the same instructional and supplementary materials. See Ms. Alvarez for more information.
