Parent Account Registration

Parent Account Registration

Parents/Guardians must obtain a Parent PIN Number from each child's school. To obtain the PIN number, the parent must provide school personnel a picture ID for verification. Parents must complete the "Parent Portal Identification" form (F-M7052E 10-06). The completed form will be filed in your child(ren)'s cumulative folder at their school.

To start the Parent Account Registration go to: <http://myportal.dadeschools.net/parent/>.

The Parent Portal Access screen will be displayed.

Note: Parents/Guardians whose students are new to M-DCPS, it is necessary to allow for an overnight processing period before you may register with the Parent Account Registration System.

Parent Account Registration

Parents/Guardians must read the Welcome to Miami-Dade County Public Schools Parent Account Registration information page before requesting a parent account.

By requesting a “parent user account,” you are certifying that you have legal custody of the student(s) in the school system.

Parent Account Registration

STUDENTS PARENTS EMPLOYEES COMMUNITY

Welcome to Miami-Dade County Public Schools Parent Account Registration

The Family Educational Rights and Privacy Act affords parents and students, the right to review, confirm the accuracy of the student's educational records and restrict access to these records. This federal law has also been codified—to a large extent—in state statutes under § 1002.22, Fla.Stat. (2005). More information about FERPA can be found at: <http://www.ed.gov/policy/gen/guid/fpco/ferpa/index.html>

By applying for a "parent user account," you are certifying that you have legal custody over the students whose records you seek to review. In accordance with school district guidelines, both parents are entitled to access to their child's educational records absent a court order specifying that access to a student's records is limited to a single parent or guardian.

A single parent account will be created for all the children in your family. Parents/Guardians with joint legal custody must share the parent account.

STEP 1 – Student Information
You will be asked a series of questions related to your child's current school records on file with Miami-Dade County Public Schools (MDCPS). **The necessary information to complete the account registration is:**

1. MDCPS student ID.
2. Parent PIN (6 digits). *To obtain the PIN number you must visit your child's school.*
3. Student's residence zip code.
4. Student's date of birth.
5. Student's birthplace state or country.

If your above answers do not match your child's school records, you will not be able to complete your registration. To update this information on school records, you will need to visit your child's school.

STEP 2 – Parent Information
This is your personal data as it appears in our system. Changes to your personal data must be requested in person through your child's school.

STEP 3 - Account Confirmation and Password
At this point you have completed the registration process. Make a note of your user ID (network login ID) and your initial password.

I read the above instructions and have all the necessary information to begin my registration at this time. *Click on Next*

A single Parent Account for all children in your family. Parents/Guardians with joint legal custody must share the Parent Account.

Within the Parent Account Registration there are three steps to follow:
